Applied Skills

- Create and manage canvas apps with Power Apps
- Create agents in Microsoft Copilot Studio
- Create and manage flows with Power Automate
- Create & manage model-driven apps with Power Apps
- Build .NET applications with C#

Professional Experience

SkySoft Connections – Senior Microsoft Dynamics CRM Consultant

Sept 2024 – Present

- Designed and implemented CRM solutions for Sales, Operations, and Customer Service
- Developed custom plugins and workflows using C# for complex business requirements
- Conducted large-scale data migration using SSIS with full validation
- Built Power Apps applications and dashboards for process automation
- Automated business processes using Power Automate to improve efficiency
- Implemented third-party integrations with Twilio, Odoo, and external systems

SkySoft Connections – Associate Microsoft Dynamics CRM Consultant

Sept 2023 – Sept 2024

- Contributed to CRM module design, development, and testing for enterprise clients
- Developed custom workflows, plugins, and automated test routines in C#
- Implemented integrations between CRM and external systems for real-time data
- Configured and customized Dynamics 365 Sales, Service, and Marketing modules

Key Projects

NetCom Learning Sales Solution

Full CRM Implementation

- Designed and customized a complete Dynamics 365 Sales solution aligned with complex business processes
- Implemented custom entities, business rules, workflows, plugins, web resources, and custom APIs
- Developed integrations with RingCentral for communication tracking and Marketo for lead management
- Configured advanced security roles, dashboards, and Power Automate flows
- Resulted in scalable CRM architecture supporting sales operations and automated lead handling

Oil & Gas Inspection Management System

End-to-End Solution

- Designed end-to-end inspection management solution covering RFQ to Job Completion lifecycle
- Automated lead creation from RFQ emails, inspection assignment, and quote generation
- Built two-way integration with LGI inspection system for real-time data synchronization
- Developed dashboards for RFQ tracking, Sales/Operations monitoring, and Inspector Certificate compliance

RFQ Management System

SharePoint, Power Apps, Power Automate

- Delivered complete RFQ management system using SharePoint, Power Apps, and Power Automate
- Designed structured SharePoint lists with metadata and version control
- Built Power Apps Canvas App for engineers and sales teams
- Implemented Power Automate flows for assignments, notifications, and duplicate detection

Copilot CRM Integration

Azure OpenAI, Copilot Studio, Dynamics 365

- Implemented Copilot automation using Azure OpenAI and Copilot Studio
- Created AI-driven agents that automatically categorize attachments and move to SharePoint
- Developed intelligent flows generating draft email responses and case IDs
- Integration combined CRM triggers, generative AI prompts, and contextual workflows

Mimojo CRM Solution

Dynamics 365 Sales Customization

- Customized Dynamics 365 Sales module for lead intake, merchant onboarding, and opportunity tracking
- Implemented structured Business Process Flows (BPFs) for consistency
- Integrated DocuSign for automated contract signing
- Built custom APIs for real-time synchronization with external portals

Bob's Watches – FedEx Shipping Label Automation

Dynamics 365, FedEx API Integration

- Developed FedEx shipping integration within Dynamics 365 CRM
- Built custom ribbon button to generate shipping labels directly from CRM records
- Implemented FedEx API calls to create shipment labels and attach to records
- Automated email delivery of shipping labels to customers

IMPAQ Business Therry – Twilio Integration

Dynamics 365 Telephony Solution

- Integrated Twilio with Dynamics 365 using custom Dialer solution

- Implemented Twilio Calling SDK for outgoing and incoming call functionality
- Developed custom interface for call logging and activity tracking
- Enhanced sales team productivity with click-to-call functionality

Odoo-Dynamics CRM Integration

Two-Way ERP-CRM Synchronization

- Led bidirectional integration between Dynamics 365 CRM and Odoo
- Enabled seamless synchronization of Contacts, Accounts, Products, Quotes, and Orders
- Managed large-scale bulk data migration projects from Dynamics 365 to Odoo
- Enhanced cross-system collaboration and supported transition to Odoo environment
